Under leadership of IFCE, the 3rd NGO Forum on International Environmental Cooperation in China was held in Beijing in November 18-20, 2003. A total of 426 people representing 35 international NGOs and 149 Chinese NGOs attended the Forum and the training workshops. Information and experience were shared and new partnerships were formed. Through NGO management training workshop, participants gained skills for advanced management. A workshop for capacity assessment of green NGOs in southwestern China was conducted in the Forum. The needs of the critical skills for strategic organizational development, management, and other leadership skills of the green NGOs were evaluated. A report on green NGOs capability and training needs in southwestern China was developed. Recommendation on future training were developed.

4. 在项目实施过程中，您和您的团队是否经历过任何失望与失败？如果有，请具体注明并解释如何解决失望和处理失败的。

Although the key objectives were achieved and priority training needs were identified, It was disappointed that the scope of the capacity assessment part was reduced. In our original proposal, further research and case studies would be conducted in order to understand better the overall development environment for NGOs in southwest China. Without this research and study, we won't be able to assess CEPF's market niche in order to develop a full capacity building plan. Since training is only one part of the capacity building, with a proper plan and specific targets, CEPF could do more in supporting NGO-government partnerships, policy formation and legislative actions. These are also crucial for NGOs to grow in the region.

**5. Describe any positive or negative lessons learned from this project that would be useful to share with other organizations interested in implementing a similar project.**

5. 请详细描述您或您的组织从该项目中获得的，可与从事类似项目的其他组织分享的任何积极或消极的经验。
