CEPF is committed to transparent operations and to helping civil society groups share experiences, lessons learned, and results. One way we do this is by making programmatic project documents available on our Web site, www.cepf.net.

These documents are accessed frequently by other CEPF grantees, potential partners, and the wider conservation community. We do understand, however, that there may be some sensitive information related to project implementation that you would like to share with us. If so, please use the next page to provide this information to us; this page will be detached in all instances before the project document is shared publicly.

Annual Performance Tracking Report Addendum

CEPF Global Targets				
July 1, 2007 – June 30, 2008				
Provide a numerical amount and brief description of the results achieved by your grant. Please respond to only those questions that are relevant to your project.				
Project Results	Is this question relevant?	If yes, provide your numerical response for results achieved during the annual period.	Provide your numerical response for project from inception of CEPF support to date.	Describe the principal results achieved from July 1, 2007 to June 30, 2008. (Attach annexes if necessary)
1. Did your project strengthen management of a protected area guided by a sustainable management plan? Please indicate number of hectares improved.				Please also include name of the protected area(s). If more than one, please include the number of hectares strengthened for each one.
2. How many hectares of new and/or expanded protected areas did your project help establish through a legal declaration or community agreement?				Please also include name of the protected area. If more than one, please include the number of hectares strengthened for each one.
3. Did your project strengthen biodiversity conservation and/or natural resources management inside a key biodiversity area identified in the CEPF ecosystem profile? If so, please indicate how many hectares.				
4. Did your project effectively introduce or strengthen biodiversity conservation in management practices outside protected areas? If so, please indicate how many hectares.				
5. If your project promotes the sustainable use of natural resources, how many local communities accrued tangible socioeconomic benefits? Please complete Table 1 below.				

If you answered yes to question 5, please complete the following table.
