Objective	Targets	Means of Verification	Important Assumptions
<p>Catalyze action by civil society to counteract threats to biodiversity, especially from invasive species, in key biodiversity areas in the Polynesia-Micronesia Hotspot.</p>	<p>NGOs and civil society actors, including the private sector, actively participate in conservation programs guided by the CEPF ecosystem profile for the Polynesia-Micronesia Hotspot.</p> <p>Alliances and networks among civil society groups formed to avoid duplication of effort and maximize impact in support of the CEPF ecosystem profile for the Polynesia-Micronesia Hotspot.</p> <p>60 key biodiversity areas have new or strengthened protection and management guided by a sustainable management plan.</p>	<p>Grantee and RIT performance reports</p> <p>Annual portfolio overview reports; portfolio mid-term and final assessment</p>	<p>The CEPF grants portfolio will effectively guide and coordinate terrestrial conservation action in the Polynesia-Micronesia Hotspot.</p>
